-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-60, drawn to modulator compounds containing heterocycles, classified in class 544, subclass 106+.
- II. Claims 1-60, drawn to modulator compounds not containing heterocycles, classified in class 564, subclass 84+.
- III. Claims 61-67, drawn to methods of use wherein the modulator compound comprises a heterocycle, classified in class 514, subclass 252.1+.
- IV. Claims 61-67, drawn to methods of use wherein the modulator compound is not heterocycle containing, classified in class 514, subclass 602+.

The inventions are distinct, each from the other because of the following reasons:

Inventions both I and II and both III and IV are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP§806.05(h)). In the instant case the process for using the product as claimed can be practiced with another materially different product such as ibuprofen.

The inventions of both I and III and both II and IV are distinct inasmuch as they are so structurally disparate that a reference anticipating a compound in one group would not necessarily render obvious compounds in the other group.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicants are further required to elect a single disclosed species, i.e. a single disclosed compound or method using a single disclosed compound, for examination purposes.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter G O'Sullivan whose telephone number is (571)272-0642. The examiner can normally be reached on M-F 8-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Johann Richter can be reached on (703) 308-4532. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
